

Introducing... Mr. Iles

Why are you a teacher at Days Creek?

I am a teacher here because math is an important subject that should be taught with care to each individual student.

Where did you go to college? What was your major? Why did you choose that major? What are your certifications?

I spent one year at West Valley Community College as a math major, two years at New Tribes Bible Institute and received an A.A. in Biblical Studies, and then three years at the Master's University where I received a bachelor's degree in Mathematics Education.

What is your greatest advice to Students? Parents?

Students, it is your choice whether you will learn or not. My advice would be that you put in the time and effort that it takes to learn because it will benefit you for the rest of your life. Parents, do your best to be patient with us and your children.

What is your hidden talent?

I have two thumbs of different sizes.
