

# Introducing... Mrs. Harris

## Why do you work at Days Creek?

Days Creek is a unique place. You get to be a part of so many things at the same time. A co-worker said it well, you get to watch a child start kindergarten and see them graduate from high school. I have had several generations and multiple family members attend Days Creek School and now my own children. It is a privilege to teach and assist here at Days Creek Charter School.

## Share more about yourself.

I attended UCC with the intentions of becoming a RN. While on that path, I detoured into phlebotomy and I took early childhood development classes. I am nationally certified in phlebotomy and I have taken several continuing education courses in childhood development.

## ■ Educational Assistant

## What is the funniest thing that happened while teaching Distance Learning?

A funny thing that made me laugh literally came from a family at Days Creek. The mom was yelling at her kids because she thought her daughter had turned her mic off, the daughter thought she had turned her video off and didn't realize it was pointed at her face day after day...., shirtless boys walking in the background and one sang "pour some sugar on me!" while pouring his milk into his cereal!! (FYI—I got permission from the family to post it.) Gotta love distance learning.

## What is your greatest advice to Students? Parents?

Take one day at a time, tomorrow is a new day with new opportunities. "Be happy! It drives other people crazy!"

## What is your hidden talent?

I can pinch really hard with my toes!
